

# “Journey to my destiny”

(Songwriter: Nadia Moore – Arranged by: Paul Nuqui)

**I**

The journey to my destiny  
Was made of happiness and sorrow  
That led me to a brighter tomorrow  
That I’m reaping now

**II**

I thought, I’d never see this day  
Though it seems so hard to attain  
Hard work and resilience  
Made all my dreams come true

## **(Chorus)**

The journey to my destiny is now  
No one weaves my destiny but me  
The journey to my destiny’s with you  
We are all connected and children of God

## **(Coda)**

As long as were living, we will work for something  
Plant seeds of love, cause love is all that matters  
Count your blessings, and leave good legacy behind  
Don’t be greedy, cause someday, you’ll leave everything behind

## **(Repeat Chorus)**

## **Bridge:**

We all have some challenges in life  
Kindness and compassion is what we need  
Love your family and neighbors with all your heart  
This life’s journey with them is worth living for

## **(with transposition)**

## **(Repeat Chorus twice)**

The journey to our destiny, the journey to our destiny  
The journey to our destiny is now
