

“Something Special”

(Songwriter: Nadia Moore – Arranged by: Shawn Downey)

I

You showed me the list about this relationship
You said it's not gonna work out, specially the age gap
Though deep inside my heart, I really hit the spot
I know, I'm a knock out, so it's good you made a start

Bridge:

It's good thing that I get in to whatever you're thin
Or we won't be here today having something special, baby

Chorus:

No one knows what future brings,
No one knows what tomorrow brings
Sometimes, what you have been denying
Is the one thing you've been looking for
Don't be afraid to lose now, or even get hurt now
Cause, how will you find out, if you're not even gonna try out

III

I said why don't we try it baby, Let me prove that they're wrong
Never mind the list baby, I don't care what they're saying
I just wanna hold you baby, I just wanna kiss your lips
I just wanna make love to you baby, Oh, all night long

(Repeat Bride, Instrumental, Repeat Chorus 2X)
