

“Until the end of time”

(Songwriter: Nadia Moore – Arranged by: Shawn Downey)

I

The first time I laid my eyes on you, boy
I know that you’re the one for me for always
Someone who would be there for all time
Someone I could call mine

II

The love that you have shown and given
Is the love that I’ve been searching for a long time
And you’re the answered prayer
Cause you’re with me my love at last

Chorus

I will love you baby, until the end of time
I will give you only my true and lasting love
And baby, you’re the reason why I’m living
I don’t know how to live without you darling
I will love you so, until the end of time

III

I’ve been burned with love so many times
I have shed so many tears all these years
My heart is oh! So tired, I want to share my life
With someone like you now

(Repeat II and Chorus)

Coda:

And then one day you came my way
You fill my life with so much joy and laughter
I’ve never been happier this way before
The search and waiting now is over
I want to share my life with you

(Repeat Chorus 2X)

Until the end of time
Until the end of time
Until the end of time
